## WORK EXPERIENCE

---

<b>Jun '22–present</b> Working on	<b>Research Fellow, IHub-Data, IIIT Hyderabad</b> Here at IIIT-Hyderabad, I comprehend how deep neural networks perform when applied to various bio-medical data and also, I am working on devising neural networks which comprehend like the human brain.
<b>Dec '21–Apr '22</b> <i>Worked on</i>	<b>Deep Learning Research Intern, Zebu Intelligent Systems.</b> Here at Zebu we develop a solution that generates human-readable CSS or JavaScript code from a pdf design. Here, I was responsible for developing a deep learning model to extract the static web page's features and generate JavaScript code.
<b>Aug '19–Jun '21</b> <i>Worked On</i>	<b>Research Assistant, VNRVJIET</b> <i>Designed real-time scalable neural networks for,</i> a) malaria thin blood smear detection and classification. b) plant leaf disease identification and classification. c) Arrhythmia detection and classification using PPG & ECG signals.
<b>Apr '19–Jun '19</b> <i>Worked on</i>	<b>Research Intern, AI Analytics Hub.</b> <i>Designed a chatbot for a restaurant startup.</i>

## SKILLS

---

<b>Language(s)</b>	Python, MATLAB.
<b>Frameworks</b>	NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch.
<b>Mathematics</b>	Metric Spaces, Analysis, Topology, Manifolds, Kernels. Linear Algebra, Statistics and Probability distributions.
<b>Biology</b>	Neurophysiology and Neurobiology.
<b>Research Area</b>	Biologically inspired Neural Networks AI in Healthcare, Statistical Learning, Pattern Recognition.

## EDUCATION

---

<b>2017–2021</b>	Bachelors in Technology, Information Technology VNRVJIET, Hyderabad, T.S, India	First Class with Distinction (GPA: 7.87/10.00)
------------------	--	---

## ACHIEVEMENTS

---

- Achieved 2<sup>nd</sup> position in hackathon conducted at JNTUCES on Dec'2019.
- Secured 1<sup>st</sup> and 2<sup>nd</sup> positions in the events carried at technical fest **Convergence** on Jan'2019.

## SERVICE

---

I have Reviewer experience in reputed journals such as **IET Image Processing**, **Expert Systems with Applications**, **Personal Ubiquitous Computing**, **IET Computer Vision** and **IEEE Access**. To check the detailed list of peer-review activity, please visit my publons profile ([link](#)). I’m also a certified reviewer for the Journal IET Computer Vision. I was a reviewer for the **LMRL Workshop at NeurIPS 2022**, **IEEE altVIZ Workshop**.

Journal	Peer-reviewed manuscripts
IET Image Processing	1
Expert Systems with Applications	3
Applied Intelligence	2
Personal & Ubiquitous Computing	4
IET Computer Vision	5
IEEE Access	16
Cumulative Reviews	31

## TEACHING

---

- Conducted a Seminar for sophomore-year students on “*Introduction to Deep Learning*” at VN-RVJIET on 5th and 6th of November 2021. [In-person event]
- Invited speaker at VN-RVJIET on topic, “*Strategies of conducting research*” on the occasion of IEEE Day, 4th October 2022. [Online event: [link](#)]
- Conducted a three-day series workshop for undergraduate students on “*Biological and Computer Vision*” from 31st of October to 2nd of November 2022. [In-person event]

## OTHERS

---

With innate interest in solving math problems, I’ve decided to provide solution manual for the two books. To my knowledge, there is no solution manual available for both of the books till date.

1. Solution Manual for *Neural Networks for Pattern Recognition* by Christopher. M. Bishop (1994) with python snippets for specific problems.
2. Solution Manual for *Metric Spaces: Iteration and Application* by Victor Bryant (1984) with python code.
